

NEW FOR 2018-2019

Truck Equipment

DRAG PRO

- Maximize efficiency while clearing snow with the DRAG PRO back blade.
- Available in 8' Fixed Wing, 8'-12' Hydraulic Folding Wing, and 8'-16' hydraulic folding wing models.
- Independent wing control on hydraulic folding wing models.
- Low profile coupler design for unobstructed tailgate use and visibility.
- Easy attach/ detach for quick operation.
- Available for 4WD, ¾ Ton and 1 Ton Trucks.

Stainless Steel V XT

- Proven V XT plow design now available in corrosion resistant stainless steel.
- Full moldboard trip design to help prevent plow damage when an obstacle is encountered.
- Available sizes include 8'2" and 9'2".

Truck Equipment Accessories

V-Plow Back Drag Edge

- Back Drag Edge-improved scraping performance when back dragging.
- Now available for BOSS V XT and HTX V Plows.

Stainless Steel V XT & DXT Plow Wings

- Increase your blade width by a full 22" at a 30-degree angle to match your stainless steel v-plow with the new stainless-steel v-plow wings.

Urethane Cutting Edges

- Now available for BOSS V XT and HTX V models for sensitive plowing surfaces.

Heavy Equipment Accessories

Box Plow Back Drag Edge

- Back drag using your SK box plow by rotating the box plow forward and pulling snow away from buildings, doors or objects.
- Retrofits to all existing SK models. (Excludes SK12)
- Sold separately as accessory.

NEW FOR 2018-2019

Ice Control Equipment

FORGE 1.0 & 1.5

- Stainless steel hopper spreader available in both pintle and auger feed systems.
- 1.0 and 1.5 cubic yard capacity.
- Pre-wet compatible.
- FORGE 1.0 available for ½ Ton and ¾ Ton trucks with a minimum bed length of 5'6".
- FORGE 1.5 available for ¾ Ton and 1 Ton trucks with a minimum bed length of 6'6".

EXACT PATH 2.5 & 6.0

- 2.5 and 6.0 cubic feet capacity drop spreaders.
- Drop deicing material along a precise path while protecting grass or landscaping.
- Ideal for sidewalks and walkways.
- Stainless steel hopper and frame for increased longevity.
- Variable speed control and adjustable feed gate for spreading a broad range of material.
- Polyethylene cover to help keep material dry and free-flowing.
- Three mounting options:
 - o Category 1; 3-point tractor hitch.
 - o UTV bed mount.
 - o Slide-in 2" receiver for select compact vehicle applications.

Heavy Equipment

SK-R 8 & SK-R 10

- Rubber edge 8' and 10' skid-steer box plows for sensitive surfaces.
- Rugged support struts add structural strength, stability, and long-term reliability.
- Articulating wing shoes help keep the plow level and in contact with the pavement.
